LS-C81 Smart Lock

Smart lock: 3D fingerprint, PIN code, RFID card, app and mechanical key.

Model: **LS-C81**

Available finishes: Silver, black.

Overview

Unlocking methods: 3D biometric fingerprint, RFID card, PIN code, mobile app and mechanical key. The whole lock body is made of aluminium alloy.

Remote opening with the TTLock app over Bluetooth, or over the internet via a gateway. Emergency power via a micro USB port.

Key functions

Five ways in

Fingerprint, PIN code, RFID card, mobile app and mechanical key.

Automatic relocking

Automatic relocking of the door, passage mode, low battery reminder and voice guidance.

Anti-tamper protection

Protection against fake fingerprints; 5 wrong codes lock the keypad for 3 minutes.

App functions

Open the door from your phone, add or remove users and download the entry and exit log.

Time-limited access

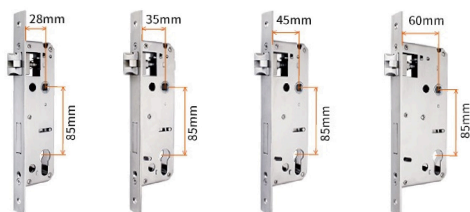

Grant access for selected dates or for a set period of time.

Robust build

The whole lock body is made of aluminium alloy; solid, reliable mechanical components.

Specifications
