

Solar PV & BIPV · Modern roofs

Risen Tiled Super Tile 108 W – Flat Solar Tile

A flat, uniform solar roof for metal roofing: frameless 108 W tiles laid vertically.

Product code: **SPC-PV-RIS-TLT**

Use case

A boutique mountain hotel has a modern standing-seam roof, and the architect will not accept racked panels.

Flat black solar tiles blend into the roof, and the energy they produce powers the spa and the lighting of common areas.

Price on request — official price list coming soon.

How it works

Fewer pieces

One solar tile replaces about 4.5 conventional cement tiles, which speeds up installation.

Self-cleaning surface

Frameless glass-glass modules do not trap dust, and rain washes the surface clean.

Lightweight

8.8 kg per tile, so one person can install it.

Specifications

PARAMETER	VALUE
Manufacturer	Risen Energy
Rated power	108 W
Dimensions	1378 × 568.7 mm
Weight	8.8 kg
Construction	Frameless glass-glass module, decorative cover plates, mounting accessories
